Audrie is a beautiful female from one of our best dams, Desiree. At six years of age Desiree is maintaining an AFD of 20.9 microns, and this fineness has been passed to her cria. Her fleece has medium amplitude crimp and density. She has great genetics from both parents, including J.P. Pauco, MMR Marcoyo, Victor's Vaccoyo and Peruvian Pictachio. Her half sister is Desiree's Bella, Supreme Champion of the AO Show 2010. She has a white cria at foot whose fleece is very fine, and is re-bred to SCA Demetri, an AH Patronne son, for a 2012 cria.
